**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 4, 5, 6, and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Scheiterlein (US/2,824,552).

3. Scheiterlein discloses a “roots-type” supercharger engine having a direct drive with the engine. Engines of this type are common in Pro street hotrods. The compressor is constantly compressing as a function of engine RPM. The cylinders will be filled by the air compressor to the maximum extent the configuration allows. Regardless where the engine stops the engine is in a suitable position for subsequent direct starting by conventional electrical starter.

***Allowable Subject Matter***

4. Claims 2, 3, 7, and 9 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure is listed in attached PTO-892 and consist of various starting systems.
